

## Statement of Narconon Arrowhead

April 5, 2013

Narconon's chief concern is salvaging lives and helping families devastated by the ravages of drug addiction. Our mission is singularly focused on eradicating drug and alcohol abuse through effective rehabilitation and prevention.

Since 1966, Narconon has used L. Ron Hubbard's breakthroughs in the field of drug rehabilitation to help thousands of people free themselves from drugs so they may move on to live happy and successful lives. Throughout that time the Church of Scientology and individual Scientologists have generously offered support, for which we are grateful.

Decades of research support the effectiveness of these treatment methods in drug and alcohol rehabilitation. We are dedicated to providing students a safe environment free from distractions and supervised by qualified trained personnel. Assisting an individual to overcome drug addiction can be an enormously intense and emotionally draining experience. But our staff is determined, sincere and fully committed to helping others to live drug free lives.

Narconon is a charitable organization dedicated to solving one of society's worst problems—drug abuse. With drug abuse now ruining tens of millions of lives worldwide, Narconon receives support from many individuals and groups to make its program available to everyone. Narconon services are available in more than 40 nations including Canada, Mexico, Colombia, Argentina, South Africa, Australia, Taiwan, Nepal and across the European Union and the Commonwealth of Independent States. Narconon Arrowhead has trained professionals from 19 nations and 47 U.S. states. All told, millions of lives have been touched by Narconon's drug prevention programs over two decades.

The real story of Narconon is told best through the thousands of lives saved from drug addiction. In that regard, viewers are urged to visit our website and hear for themselves what the graduates and their families say about Narconon. [www.narcononarrowhead.org](http://www.narcononarrowhead.org)
