DONALD J. TRUMP'S PROPOSAL FOR THE WORLD TRADE CENTER SITE

Donald J. Trump will present a proposal for the World Trade Center on Wednesday, May 18th, at 10:45 a.m. at Trump Tower, Street Level.

"We'll be back stronger than ever with this design" says Mr. Trump. "If someone knocked down the Statue of Liberty, you wouldn't put the Eiffel Tower in its place" stated Mr. Trump. "Why are we building this monstrous 'skeleton' known as Freedom Tower? If Freedom Tower is built, the terrorists win."

Ken Gardner, engineer, and Herbert Belton, architect, are the creators of this new design. Mr. Belton worked on the original design of the World Trade Center in 1965, and has an intimate knowledge of the site. He and Mr. Gardner have worked together for the past three years on their plans, after Mr. Gardner visited the site shortly after the September 11th attacks and was moved into action by what he saw.
