(Some/Other) people say it would help lower health care costs because it would compete with private health plans. This new public plan would provide coverage for the uninsured and all Americans would have an option for quality affordable health care.

(Some/Other) people say that patients might not always have access to their choice of doctors and the government would lower costs by limiting medical treatment options and decisions that should be made instead by patients and doctors.

31. Now I am going to tell you more about the health care plan that President Obama supports and please tell me whether you would favor or oppose it.

The plan requires that health insurance companies cover people with pre-existing medical conditions. It also requires all but the smallest employers to provide health coverage for their employees, or pay a percentage of their payroll to help fund coverage for the uninsured. Families and individuals with lower- and middle-incomes would receive tax credits to help them afford insurance coverage. Some of the funding for this plan would come from raising taxes on wealthier Americans.

31. Now I am going to tell you more about the health care plan that President Obama supports and please tell me whether you would favor or oppose it.

The plan requires that health insurance companies cover people with pre-existing medical conditions. It also requires all but the smallest employers to provide health coverage for their employees, or pay a percentage of their payroll to help fund coverage for the uninsured. Families and individuals with lower- and middle-incomes would receive tax credits to help them afford insurance coverage. Some of the funding for this plan would come from raising taxes on wealthier Americans.

Do you favor or oppose this plan?
